SEARCH INFORMATION

**LOCATION** : This could be any of the following, or any combination of the following  
1. Radius (in miles) from an address or intersection, 2. school districts, 3. City or Cities  
4. Subdivisions (ie. Hamilton mill), 5. area of town (ie, south of 85, north of 316)  
If you would like to talk to an agent to determine information about areas (ie traffic patterns, school rankings, value, etc) Please just write "Speak with an Agent"

**BEDROOMS AND BATHROOMS:** Be careful to make your minimum the absolute lowest number you could do. Ie, if 3 bedrooms would work, but you need an office so you are considering putting 4. It would be better to put 3 bedrooms, and then scan listings to see if there is another room in the floorplan. Some homes have 3 bedrooms and a formal living room or dining room that may work for you, you don't want to make the search too complex and miss out on listings

Bedrooms - Min: \_\_\_\_\_ Max: \_\_\_\_\_

Bathrooms- Min: \_\_\_\_\_ Max: \_\_\_\_\_

**PRICE RANGE:** we only need the max price, but feel free to also include a minimum  
\$ \_\_\_\_\_ to \$ \_\_\_\_\_

**FEATURES :** Most searches can be narrowed down fairly well with only the above criteria, however, most buyers have additional items they want in a house. Some things are required ie. You may NEED a separate dining room or a fence, but some things you may be able to live without, but would prefer having, like a breakfast bar or a walk in pantry  
Keep in mind that this search ONLY searches what an agent included when they listed the property. So by putting additional items under REQUIRED - you may risk missing a house that meets all your needs because it was listed incorrectly. Conversely, if you put those items under "Want" you and your agent can be aware of your desires and filter the search results without missing any listings
